Hi, Patrice, I hope you're well. I am hoping there will be a way to call in to this meeting? I'd really like to cover it but with some other things going on here, I won't be able to be there in person. (I am hoping to be there for the Oct session / tour, though).

What do you think? Also, if there's a phone line, I know there will be other EPA colleagues with technical expertise that would be interested as well.
